Coil Processing

The capabilities and expertise
to handle all your needs

Armor Contract Fabrication and Manufacturing is your one-stop solution for a wide variety of custom designed, engineered products.

We are experienced in both large and small production runs, large scale units, and building to government specifications.

Armor Contract Manufacturing provides coil slitting for fast delivery at competitive prices with our in-house coil processing. Our expertise in steel procurement, combined with our in-house slitting lines, dramatically reduces the time to produce your production ready parts. Steel can be inventoried and then slit to final widths once die dimensions are determined.

Our coil slitting capacities include:

- Slit 20,000 lb. coils with max width of 42"
- Thickness range from .04" up to .25"
- Coil slit width as narrow as .75"
