

Fabricated & Mechanical Machine Assemblies

The capabilities and expertise
to handle all your needs

Armor Contract Manufacturing is your one-stop solution for 'build to print' machine and fabricated assemblies

We are experienced in both large and small production runs, large scale units, and building to government specifications.

Armor Contract Manufacturing can handle large machine assemblies from design to shipping. We fabricate, weld, prep, paint and do final assembly of products. We then ship direct to your customers with your shipping documentation to create a seamless transaction. We can handle basic machine assemblies to the most complex machines assemblies with precision and quality.

The days of customers sourcing separate engineering, cutting, welding and finishing suppliers are in the past. The combination of Armor's dedicated employees, ample facility, and specialized equipment are unparalleled by other contract fabricators
