

ARMOR
CONTRACT MANUFACTURING

Machining

We are a national provider of precision CNC milled and turned, ferrous and non-ferrous metal components. We have extensive experience in high speed, high volume castings, flat and bar stock, and a full complement of supportive operations including cut-off, EDM, grinding, and swiss capabilities. We serve aerospace, government, automotive, defense, pump, RV, trucking, and other industries. Whether you need manufactured machined parts or machining services, your components will be our top priority. Contact us to discuss achieving your business objectives.

OUR EQUIPMENT:

12 CNC VERTICAL MILLING MACHINES

Travels are 17"x25" up to 43'x81"

5 CNC HORIZONTAL MILLING MACHINES

400mm bed capacity

4 CNC TURNING CENTERS

High precision, High volume

4 CNC LATHES

Up to a 10" swing, Including additional rotary tooling

2 CNC SWISS TURNING MACHINES

Diameters as small as .125 and lengths as short as 0.032". secondary operations, auto feeding available

2 EDM

tolerances as small as 0.0005" (0.0125mm). Our capabilities include the ability to cut parts up to 15-1/2" tall

3 CMM

Fully calibrated quality equipment, 2 Mitutoyo and 1 Brown and Sharpe CMM including conventional gauging, dimensional verification up to 20"x27" of travel

TOOLING

Armor Contract offers Tools, Jigs, fixtures, gauging equipment, stamping dies for your tooling needs
