

ARMOR
CONTRACT MANUFACTURING

Military and commercial containers

The capabilities and expertise to handle all your needs

Armor Contract Manufacturing designs and builds reusable shipping and storage containers for a variety of applications. Our engineering team uses sophisticated 3D computer aided design to recommend product improvements and quality enhancements to new requirements and design changes. Armor Contract has earned an international reputation for quality, reliability, and competitive pricing. From design to prototype, testing, and production, Armor Contract customers receive service and products of the highest standard. To ensure our quality, we meet our customers' requirements with corporate-wide oversight.

Container applications include:

- Missile Transport
- Military
- Ammunition
- Guidance
- Helicopter
- Aircraft
- Automotive
- Communications
- Electronics
- Bomb Components

We proudly serve all branches of the United States defense agencies including the Army, Navy, Air force, Marines, and the Coast Guard. Many private sector companies trust our capabilities for their containers as well. All military work is in accordance with MIL-I-45208 constructed using carbon/stainless steel and aluminum.
