

ARMOR
METALSTAMP

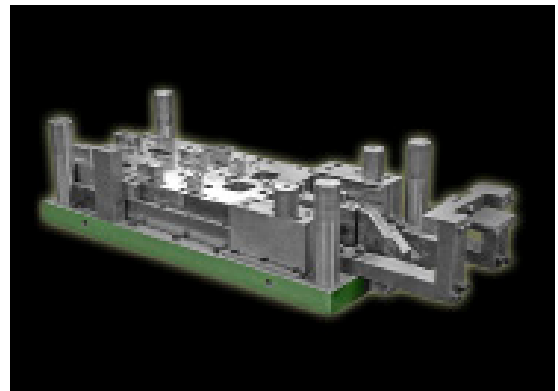

Tool & Die Design Engineering, Fabrication, Repair, and Maintenance

**One-stop solution for
light to heavy gauge stamping**

Armor Metalstamp offers custom tool and die services, including design engineering, fabrication, repair, and maintenance.

We specialize in troubleshooting customer's existing tooling. We have experience with single operation, and progressive dies, as well as deep draw and custom stamping dies. We are skilled at designing and building dies to blank, pierce, draw, extrude, form, and notch materials such as carbon, low carbon, stainless, coated, high strength, galvanealed steel, aluminum, and other specialty metals, as well as supply gages and fixtures.

Armor Metalstamp works to precision tolerances for all of our tool and die projects and has a well-equipped tool room, engineering team, and supplier network to ensure a quick turnaround.
